MASTER OF SCIENCE IN
QUANTITY SURVEYING

This Master of Science in Quantity Surveying programme at GSTM prepares students to learn how to add value to projects through demonstrating excellent knowledge and skills in managing cost and information, advancing practices and procedures, and managing risk effectively. It focuses on skills in the areas of critical thinking, problem-solving, business development, team collaboration, cost management and awareness of sustainability in the built environment. Students will learn how to ensure construction projects are delivered to the satisfaction of the client and other construction professionals and help shape a better future in the built environment.
